THE PEOPLE HAVE A RIGHT TO VOICE AND COUNTERVOICE

- 2ND EDITION: ABOUT THE CURRENT DANGER OF WW3 -

INTRO

The countdown has started! Will the death dust soon fall on us as well? Who are the warmongers who want a 3rd world war based on lies just like WW1 and WW2? Will we stay silent again or will we wake up and bring the entire work of the aggressors ruthlessly to light as the responsible people we are? If every V&C reader takes every V&C, copies it at least three times and passes it on, there is hope for a breakthrough just in time!

How humanitarian is the Freemason leadership?

hk. Albert Pike, one of the highest ranking freemason lodge leaders, wrote to Giuseppe Mazzini, an illuminati leader on August 15, 1871, the following plan to gain solitary world domination. There are many sources confirming this writing.

Among other things, it contained the plans for WW1, overthrowing the power of the Russian czar in charge of the Orthodox Church so as to found an atheistic-communistic nation.

[Note by editor: This is exactly what happened. After WW1 1917, there was the Bolshevik revolution where communism and atheism came to power.]

“Then there must come another world war and it should

be between England and Germany. The reason this war must be planned is to depict the contrast between communism and the Judeo-Christian culture. We need this contrast for political Zionism to be strong enough to institute a sovereign state of Israel in Palestine.”*

[n. b. e.: This is exactly what happened after WW2!]

“And then a third world war! It should start in the Middle East and should be a war between the Jews and the Islamists that spreads across the entire world. This war between Muslims and Jews should finally bring about this Armageddon [= decisive end-time battle].”*

Albert Pike explains in a further letter how this is to hap-

pen: “We want to first found the nihilistic movement [= unconditional denial of all norms, moral, goals, societal orders], meaning this communist-atheist system, and then bring in a cataclysm [= historic, worldwide natural disaster]; a war and grief previously unknown. In the end, we want to show mankind what absolute atheism can do. There will be a bloody bloodbath. In the end, atheism and Christianity should both be defeated and the pure doctrine [= validity] of Lucifer should be brought about with the destruction of Christianity and atheism.”*

[Note by editor: This was all written by Albert Pike in 1871!]

Who are the real war criminals?

woe. According to the principles of the Nuremberg trials, later incorporated in the United Nations charter, planning, preparing, inciting or directing an aggressive war is one of the most severe war crimes. Consequently a war against a country not threatening the aggressor with an attack is a serious war crime. The United States’ secret services found out unambiguously that Iran is clearly not trying to build a nuclear bomb. Why are the leaders of the USA and Israel al-

lowed to openly threaten Iran with an attack, without exposing themselves to the reproach of committing a war crime? How should we take it then that US President Obama and his Minister of Defence Panetta have already sent three aircraft carriers into the Persian Gulf and the Arab Sea? Isn’t this obvious planning or preparing of an aggressive war and therefore a severe war crime?!

“Nuclear weapons are the work of lunatics. A weapon which does not differentiate between military and civilians and erases whole cities, is the work of lunatics. We Iranians do not need this insanity.” *

“Nuclear weapons are inhumane and immoral. The time of the atomic bomb is past. As a principle we are against such weapons. The nuclear weapon belongs to the past century.” *

German TV interview with Iranian President Ahmadinedshad

daso. In his latest interview by German TV reporter Claus Kleber, Ahmadinedshad claimed several times not to be interested in building an atomic bomb, qualifying it as immoral and inhumane. Ahmadinedshad reported that Iran has already been co-operating above and beyond the contract obligations with the International Atomic Energy Agency for a long time to provide complete transparency. In return for this good will

on Iran's part, the confidential information was published and illegally disclosed to hostile nations. Following this, high ranking Iranian scientists were killed in assaults. Are the media and the International Atomic Energy Agency really independent or do they in reality pursue other interests?

USA – Iran: Who is threatening whom?

ub. While the Hiroshima nuclear bomb had 15 kilotons (KT) explosive power, the US warships off the Iranian coasts are currently being loaded with a total of about 340.000 KT of explosive power! In their naval units operating at this moment in the Persian Gulf and in the eastern Mediterranean near Iran, the USA have deployed in total more than 22-thousand times the nuclear explosive power that was dropped on Hiroshima. Who is threatening whom?

The NATO's destructive fury by means of uranium ammunition

ham. Afghanistan and Libya are not simply lying in ruins. Uranium ammunition used by the NATO troops and bombers, capable of blowing up bunkers, is systematically contaminating the involved target countries with radioactivity. This is genocide [murder of entire nations] with a long-term effect sneaking up on the civilian population. Even the NATO soldiers executing this have been protesting for years through their union Euromil against the use of uranium ammunition. 30 to 40 percent of these soldiers are themselves victims of radiation damage. In spite of this it is still used consistently. In 2008 the UN general assembly voted on another ban on uranium weapons. 144 countries voted in favor of this ban. Four countries voted against it though, thus achieving a veto: **the USA, the UK, France and Israel.**

The consequences of a military strike against Iran

mw. A possible US-Israeli strike against Iran means a thermo-nuclear threat for the entire world population because Iran has powerful support – Russia and China, but also neighboring Turkey and Pakistan. The whole Islamic world will most likely be in uproar if Israel and the USA attack Iran. It would not only halt oil supply from Iran, but also from Saudi-Ara-

bia, from Kuwait and the United Arab Emirates. This would cause an explosion of the price of oil and the collapse of the global economy. Will all of these foreseeable, destructive consequences deter the USA and Israel from launching such an aggressive strike?

“We love you” – Iran and Israel

ft. “To all fathers, mothers, children, brothers and sisters. In order that a war can start between us we first have to be afraid of each other and hate each other, but I'm not afraid of you and I don't hate you... we love you!” This message is currently being sent 1000-fold by Israelis [n.b.e.: not by Zionists!] to Iranians. What is happening here takes an important function in history as a role model. The population of a country threatening with aggression starts direct peace negotiations with the people of the threatened country, supposedly hostile, above the heads

of their warmongering government! New friendships are blossoming minute by minute between Israeli and Iranian people. The people are tired of the enmity initiated by their governments. They just want what everybody wants – to live and let live. The population neither wants war nor do they want to fight!

Conclusion •

The last sentence of the so-called inflammatory speech of Ahmadinedshad at the 64th UN General Assembly in New York:
**‘Long live love and spirituality!
Long live peace and security!
Long live justice and freedom!
God's peace and blessing be upon you all.’**
