INTRO

Assuming I would produce something in my cellar, that looks and feels like money, but actually is not money, may I anyway spread it around to people? I will put it differently: may I deal with ten other people, as if I were faithfully taking care of their hard earned savings, although I had lost nine of their deposited capitals... as long as I manage that perfectly? Where we throw every little criminal into jail with high penalties, we still pay our banks interests and compound interests. We rather bleed to death as whole states before we cry out: stop! What a huge deception! We are being destroyed here in excessive debts caused by interest, caused alone by the fact that a small group of people managed to play a trick in larger than life format. Who exactly has deceived us? What are their names? Where do they live? Where do they come from? There is only one way to save the deceived people – let's put them behind bars!

Ivo Sasek

Money is created out of nothing

bub. Most people think that money is printed and created by the national government, whenever desired. The truth is that only 2% of the money in circulation are coins and notes produced by the government. Where then do the other 98% come from? The answer: Money, without exceptions, is created by credits! Which means: banks let „imaginary money“ come into existence by granting credits to states, companies and private persons through the respective issuing bank or national bank. This money, not existing as real

coins or notes but only “on accounts”, disappears again as soon as the credit is paid back. Our financial system allows banks to grant credits nearly without limits. That is called fractional credit system. The fraction (part) for credit-granting is the bank deposit or the pledged safety of a citizen at the bank. Because of this bank deposit/pledge, the bank can create at the particular issuing /national bank an incredible total of up to ninefold the amount as new credit, and can lend it again for interest. This creating of credits without cor-

responding service is also called “Fiat Money” – „Let there be money!“ And that out of nothing! Hence banks live on demanding payments of interest from people for “nothing“, which these even have to guarantee for. Who made up this unrighteous system? Who legitimized it? How long will we still tolerate this fraud?

Trying to change the banking-system – at the risk of one's life?

bub. The ordinary citizen assumes in general that the national banks belong to the state. However, the word “national” may no longer belie the fact that many national banks are in private possession. In the past, five men tried to return the privilege to create money back to the state. While doing that the first of them barely escaped murder. The four to follow were murdered still in the midst of their campaign.

† 1863: Thomas J. Jackson (U.S. general). The attempt to murder him failed. Nevertheless it is not excluded that his later death was planned, too. (He was shot at in mistake, and died shortly after because of an infection).

† 1865: Abraham Lincoln (U.S. president)

† 1881: James A. Garfield (U.S. president)

† 1963: John F. Kennedy (U.S. president)

† 1969: Martin V. Mahoney (U.S. magistrate)

In the case of the first National Bank of Montgomery¹ against Jerome Daly, he decided that the execution of a mortgage was void because, as the bank itself had to admit, the credit had been given “out of thin air”. This had contradicted the still valid constitution of the founding fathers and its amendments. This decision was enough to start a revolution. Half a year later the magistrate that was dangerous for the banking system “fell victim to an accident“.

Lecture by Prof. Dr. H. Wohlmeyer, 1.6.2012, Bildungszentrum Hard (A)

“He who controls the money in our country is the absolute master of all industries and businesses ... and as soon as you have understood that the whole system can be controlled very easily, by a few powerful men at the top, you will comprehend where the inflation periods and the economic depressions come from.”

James A. Garfield,
US president (1881 – 2 weeks
before his assassination)*

¹This bank is a member of the Federal Reserve Bank of Minneapolis, ruled by the Rothschilds. Both Banks are in private possession and part of the Federal Reserve System (FED). Magistrate M.V. Mahoney was asked to take the case after two judges had been rejected because of prejudice (by one of the parties in each case).

Virus alert! Countervoice web sites seem to be at high risk of virus attacks. Hand-to-Hand Express avoids this danger - information concise and to the point, without using the internet - Advice for all who still consult the links: never access the internet from a PC with sensitive data.

You have important news? Write a short Hand-to-Hand Express article. – Clearly state the major point and name the responsible people! – Sources if possible without internet! – Then send your short article to SuG@infopool.info

The War for Oil

Already on May 22, 2003, former US president George W. Bush issued "Executive Order 13303", which gives total immunity to US companies involved in the oil business in Iraq. Because of this order, these companies do not have to fear prosecution because of human rights violations, environmental pollution, fraud, tax evasion or any other crime. The Jewish Rothschild/Rockefeller group,

which today already dictates the worldwide oil business, now wants the oil reserves in Iran which are necessary for a world-oil monopoly.

Perhaps, in light of these facts, the war preparations against Iran can be better explained.

Netanyahu intensifies threats to attack the Iran

hk. Israel's prime minister Netanyahu warns: "If the world powers do not set clear limits to Iran in nuclear politics, his country would not hold back." More and more bluntly he threatens Iran with war.

near future. Now there remains just one question: Who is going to set clear limits to Israel that has at least 200 times the nuclear potential as Iran – if the latter had a single atomic bomb?

The escalating rhetorics nurture speculations that Israel might attack the Iran in the

Mixture of peoples promoted by law

mab. The Nations have been made politically defenceless by anti-racism laws, in order to open every door for unrestricted mixture of the peoples. Back in 1955, WHO*-CEO G. Brook Chisholm wrote in the US-Magazine: "What people have to do everywhere is to genetically mix, so that one race, on one earth, under one government is created." Doesn't that mean that all patriotic thinking and feeling is lost, in the mixing up of various cultures? Why should a uniform person be created, thinking

and feeling globally? Now already all those people, investing themselves for their national identity are marked much too quickly as racists and neo-Nazis. But who admits that the worst racists prove to be the initiators of such laws, as they want to destroy all our western races at once?

Who exactly is so intolerant against all independent races that he forces them to join into a uniform race?

Hungary throws out Monsanto...

Hungary's prime minister Viktor Orbán expelled Rockefeller's chemical, food- and seed giant Monsanto from the country because, unlike in most European countries, genetically modified seed is forbidden in Hungary. According to the vice minister for rural development (Lajos Bogner), even 400 hectares of land were plowed up, to destroy the genetically modified seed. Orbán, who holds a 2/3 majority in parliament, can count on further support, dealing with Monsanto. In the meantime, the USA how-

ever, are starting sale-wars in military style against nations which stand up to Monsanto and GMO plants. So it is not surprising that many US diplomats work directly for Monsanto, to convince other nations of the benefits of GMO technology. So all respect to every government who still cares for the needs of its country and who, like Victor Orbán, is ready to pay a very high price to make a steadfast countervoice.

Extreme increase of miscarriages in Iraq

In several cities in Iraq there has been an extreme increase of deformations in newborns in the last years. "First place" goes to the city of Fallujah, which was bombed twice in 2004 with uranium- and phosphorus ammunition. 45% of all births there end in miscarriages. And 50% of babies born alive suffer from serious deformities and handicaps. When you see pictures of these babies, you cannot believe it. So the USA and Great Britain have, in the search for non-existent weapons of mass destruction, destroyed a great part of the next several generations with their own WMDs. Because in the end all Iraqis will pay for this mass murder.

Closing Point ●
First when, as in Iraq, the dead and maimed become visible everywhere, we speak of war. It is time that we understand, that the war has many faces, and in the meantime is raging all over. Because everything that destroys our foundation of life is war, whether it comes as forced immunization, as world financial deception or in the form of forced race mixture and so on. For the maimed in Iraq every V&C comes too late, but not for those remaining! So distribute faithfully - be an accountable V&C courier!
