THE PEOPLE HAVE A RIGHT TO VOICE AND COUNTERVOICE

~ No. 6/12 ~

INTRO

The V&C is more than just an ordinary newspaper. Every article becomes a historical document through its source. That is why it is worth it to establish your own V&C archive. At the end of the year follows a thematic overview for every issue.

So the V&C is becoming a printed lexicon with historical counter voices. Charges about lies of the media and crimes can be handed in at www.klagemauer.tv.

Every testimony is important.

Ivo Sasek

Press as free as a bird?

pb. Quote of the Swiss Depeschagentur (sda): "He who publishes secret data risks a fine! This norm of punishment, which usually is aimed at those working for the media, shall be abolished according to the will of the commission for legal affairs of the national council." In other words representatives of TV, radio and print media are in the future allowed to sniff around in our private affairs and may – without fearing a fine – publish everything that they want to, which has been forbidden until now. Our workers for the media who already have all kinds of freedoms are thus even becoming unassailable? For what reason?

If the Media errs

mc. "Excuse Me!" was written in an issue of the Blick newspaper (similar to the American paper 'The Sun') in February 2012. The "partially inaccurate record" destroyed the life of a falsely persecuted social entrepreneur. Five years long, this man fought for the rehabilitation of his name in court. He was accused to have placed children in social care places, where they were physically mistreated. "Blick" made a media propaganda out of the story.

Afterwards "Blick" found out that the accusations of the young people that the newspaper had printed were wrong or at least exaggerated by far. "This insight comes too late; I received threats. Mentally I was in a desolate situation. I don't wish that on anybody," says the slandered one, looking back. Private perpetrators usually have to go to prison, a newspaper pays a compensation in the worst case. Once more, a grave media error

was acknowledged publicly five years too late. May many further media lies in the future be brought to light while they are still current because a slandered reputation needs more than just five years in order to be nearly rehabilitated.

Every Swiss is to become an organ donor

gsc. Now even the federation is examining whether possibly everyone in Switzerland will become an organ donor. Those who do not agree with that will then have to become active on their own part and enroll. People saying "No" will be listed in a separate database. The law had to be adapted like in Germany. The report by the BAG will be presented at the start of 2013. In it Pascal Strupler, di-

rector of the Swiss health administration (BAG), wants to show further possibilities that could quickly lead to more available donor organs. But before the system of objection can be introduced, a change of law will be necessary.

Precipitate practice of organ donation

bm. My friend's mother had a stroke and was as good as clinically dead. As a result, the doctors wanted to shut off the life support and were already asking for an agreement for an organ donation! A donor ID would have been her sure death! But, they still had to wait for my friend's agreement. After the examination the next morning his mother showed

some reflexes again and finally had emergency surgery. Simply that she had survived that night was a medical miracle! After some further surgeries and rehabilitation, my friend's mother has almost recovered and is nearly back to normal again. So, I can only affirm the reservations against a rash organ extraction.

The occupied country

For 66 years there have been foreign troops stationed in Germany, using our country [...] as a platform for military interventions in the entire world - how much longer? Regarding the enormous power factor of foreign military presence, it makes no difference if one [...] calls it "foreign troops" instead of "occupying forces." Looking at the facts, the use of terminology does not change a thing. If, on the other hand, people talk about the "U.S.-troop personnel" or even "our friends" as if talking about some neighbors down the street or the vendors in town, then self-deception is in full swing.

Virus alert! Countervoice web sites seem to be at high risk of virus attacks. Hand-to-Hand Express avoids this danger - information concise and to the point, without using the internet - Advice for all who still consult the links: never access the internet from a PC with sensitive data.

You have important news? Write a short Hand-to-Hand Express article. – Clearly state the major point and name the responsible people! – Sources if possible without internet! – Then send your short article to SuG@infopool.info

CH-Bank involved in destruction of the rain forests

freho. The funds administration of the Swiss environmentalist Bruno Manser missing in Borneo's rain forest, point out to have proof of irregular transfers of several million dollars with the note "logging concessions ". The money was transferred onto accounts of the Swiss USB (United Bank of Switzerland) in Hong Kong. The account holder is supposed to be the Malaysian top-level politician Musa Aman. From these accounts, payments were made to the forest director of the federal state of Sabah in Borneo, also to companies in the Caribbean, to the sons of Musa Aman and to the family Taib. Taib Mahmud is the head of the government of the neighboring state of Saba, Sarawak, which is rich with forests. These "concessions" are without a doubt bribe money, the accounts are only superficially shrouded money laundering accounts.

Surveillance technology in the school uniform

jb. The official authorities find ever more reasons to push through the total surveillance – step by step and without mercy. In the Brazilian city of Vitória da Conquista all 43,000 students will wear a school uniform with a sewn-in RFID chip (microchip) by 2013. This should serve to find out about those skipping classes. Yesterday the chip was only in the passport, today it is in the school uniform and tomorrow under the skin?

Declaration of Public Conscience (1992)

About three million declarations of public conscience (!) were collected and given to the international court in Den Haag as part of the project "world court." The declarations call upon the "De-Martens-formula" of the Haag convention of 1907, which states that the public conscience (!) should be considered in all questions of international national rights concerns. "With this I confirm before the entire world my wish and my right to live in a world, which is free of the threat of destruction by nuclear force. I believe that I have to save the gene-

rations to come from nuclear waste. It is my strongest conviction that any use of nuclear arms would not only be a tragedy beyond all imagination for all of mankind, but a striking injury of international law and a crime against humanity. Every use of nuclear weapons would not only cause the cruelest sufferings to the people against whom they are used, but also numerous other people who are not even involved in the war conflicts. And over generations children and their descendants have to suffer from these destructions. Additionally, the use of nucle-

ar arms would damage our entire environment beyond repair."

Chemical and biological arms are already forbidden through international treaties of international law.

The use, yes even the ownership of such weapons is a grave violation of international law and a national law crime. Now it only depends on putting it into practice. Who obeys first?

The U.S.A., Israel or one of the other great nuclear powers?

A military intervention in Syria would cause WW3 to break out ...

uw. This is the conclusion of general ret. Klaus Reinhardt. He is the former commander of the KFOR troops in the Kosovo and refers to the statement of the states of the Shanghai Organization. These were supposed to have said that an attack on Syria were to be seen as an attack on the own country.

China, Russia and Iran also function as security powers for Syria. Reinhardt comments the statements of the minister of foreign affairs in Israel, Lieberman, in Brussels concerning the supposed passing on of Syrian chemical arms to the Hezbollah as follows: "We all have seen at the start of the second

Gulf War how on all sides it was played, tricked and lied with chemical, biological and nuclear arms. I trust neither the CIA nor the Israeli minister of foreign affairs. Here something is being brought to public attention very quickly."

War Trauma with soldiers: "Just stop lying"!

bk. A soldier (Georg-Andreas Pogany) returned from Iraq back into the US with injuries to the brain and was supposed to appear before court right away because of cowardice. The non-commissioned officer returned back from Iraq early because of an injury to the brain. This he had to prove to the military – not vice versa. He collapsed because he had to watch an Iraqi torn to pieces by

a machine gun. "The way the Pentagon handles traumatized soldiers or those with brain injuries is a scandal," says Georg-Andreas Pogany. Instead of treating him, the army wanted to pillory him. Today the man from Denver stands up for the interests of US veterans of war.

There are thousands of soldiers with brain injuries or traumas. Instead of taking the problems by the root, the rather unpleasant witnesses shall be silenced.

Conclusion •
In the V&C, contemporary witnesses say how things have happened. Never again will we be left alone with history according to the "victorious" world powers and their conquests like we were after the two world wars.
Ivo Sasek

The sources were taken from the German edition and may contain German references.

Print for the Hand-to-Hand Express is not centralized. Please copy this yourself at least 3 times and pass it on!

Sources possibly attacked by hackers or lost in the internet are saved in the V&C archives.

Masthead: 11/22/12
