### INTRO

*In their strive for world dominion, the initiators of this 'One-World-Dictatorship' are hiding behind the supposed fights for freedom of suppressed countries and inciting people against the Russian President. They do not tolerate Putin having the audacity to defend the liberal self-determination of the Russian people and the sovereignty of the own country. For in this new world order there won't be any sovereign nation in the end. Whoever does not submit to it will be incited by the mass media which is controlled without exception by the financial elite who stop at nothing. The oppression of all people under the forceful mandates of a few thousand 'aristocrats' is part of the agenda. For this, they go to any length and do not even recoil from a third World War. We do not know how much time is left to open the eyes of the people worldwide. We only know: There is no time to lose!*

### Gorbachev welcomes Crimea's accession to Russia

The last President of the Soviet Union, Mikhail Gorbachev, expressed his support for the accession of Crimea into Russia, criticizing the sanctions of the West. Gorbachev said to the news agency Interfax that the peninsula had been annexed to Ukraine upon decision of former Head of

State Nikita Khrushchev without asking the Crimean people first. "The people in Crimea have now decided to correct this mistake." The referendum "should be welcomed and not be leading to new sanctions", the former Head of State said. Sanctions should only be imposed for very seri-

ous reasons and would have to be supported by the UN. The accession to Russia was desired by the people and does not sufficiently justify the sanctions.

### Sanctions against Russia first and foremost strike Europe – especially Germany

**mc.** The former ARD-foreign correspondent Christoph Hörstel in an interview comments on which sanctions are actually charged against Russia and which effects have to be considered. This year it would be possible for investors to draw off approx. 85 billion dollars from Russia. In the same time American rating agencies have depreciated the Russian currency, so that the country can only obtain

credit in the world market through high interest rates. With a National Debt of approx. 10% of its gross domestic product, Russia has to spend an extremely small amount of its budget on interest payments. However, the National Debt of the USA is over 110%. Well, "Putin didn't let the banks make a slave out of him." Fact is that Russia is a preeminent supplier of energy and raw materials.

"Germany alone depends on Russia for approx. 40% of its gas and oil supply." Anybody that imposes sanctions on Russia has to expect a corresponding answer from Moscow, announced the foreign ministry of the Russian federation recently. Who then is interested in a further escalation of this conflict?

### Undercover transport of the Ukrainian gold reserves to the USA

**mm.** According to a report in the Ukrainian news portal 'Iskra-News', at the beginning of March all the gold reserves of the country were flown out to the USA in a cloak-and dagger operation at the instruction of the illegitimate and undemocratically elected leadership in Kiev. Trucks without number plate were unloaded in haste by

heavily armed men dressed in black. Afterwards the plane vanished from the emergency runway. This was later confirmed by a leading official of the former Ministry of Finance. The International Monetary Fund (IMF) calculates the Ukrainian gold reserves at approx. 42,3 tons (which corresponds to approx. 1,3 billion Euros). What

would have been the reaction of the media if the gold had been brought to Russia?

### The Ukrainian revolution fears a free press, free reporting

**mc.** On Tuesday, March 18, 2014 – the day the Crimea signed the treaty to join Russia – representatives of the Swoboda party (which is responsible for

the overthrow in the Ukraine) stormed the office of Alexander Pentelejmonow, who is director of the state-owned television channel NTKU. They violently

forced him to sign his resignation and subsequently threw him out of his office. Pentelejmonow was accused of practising pro Russian reporting. The

reason among others was the broadcasting of fragments of the speech by the Russian president Putin on television concerning the situation in Crimea. Obviously the representatives of the Ukrainian revolution fear their own people. It seems they could develop a different opinion, if Putin could be heard uncensored. This is an indication that the state putsch is not backed by the majority of the people. A government which hinders objective reporting

rightly fears the people – in every nation of the world!

**Thousands of Ukrainian citizens are looking for help and accommodation in Russia**

According to the Russian border guard administration, since the beginning of 2014 about 675.000 Ukrainians have come to Russia. According to the Russian Civil- Defence-Ministry, about 143.000 Ukrainians have asked Russia for asylum. Russian territories, especially those adjacent to Ukraine, such as Belgorod, Rostow and Brjansk, as well as the region of

Krasnodar are heavily burdened by the growing immigration. In February, the number of Ukrainian migrants in the territory of Rostow and Krusk has increased by 53 and 71 percent.

**Paid mercenaries – instrument of power by the USA**

*dag.* They spend their time in the Balkans, Afghanistan, and in Iraq. Sometimes they even “get rid of somebody” in the upper class. They carry out each mission, pocketing high wages. These are mercenaries from the largest American security and military enterprise called ‘Blackwater’. The Blackwater transactions which were ordered by the USA were marked with scandals, such as the maltreatment of prisoners in Iraq and Afghanistan. After the execution of 14 peaceful civilians in Bagdad during 2007, the ca. 20.000 paid for-

mer soldiers continue working all over the world, now named ‘Academi’. Also in the Ukraine crisis the US government placed its trust in mercenaries. Not only the violent Independent Square protestors have been paid by them. According to the press agency ‘Interfax’ 300 Academi-mercenaries were flown into Ukraine from the USA and have been sighted in Donetsk.

**Oil and gas – the real motives behind the US-warmongering**

*abu/pab.* A substantial reason which could have compelled the USA to their warmongering sanctions against the Russian president Wladimir Putin, finds little attention in the Western media: In 2011 Putin opened an oil and gas exchange in St. Petersburg. There it is traded - detached from the US-Dollar - with the Russian ruble and Chinese Yuan. Already, a number of heads of state have had to pay the detaching from the Petro-Dollar with their lives. We also find that in Sewastopol (Crimea), next to the Russian military fleet stationed there, there are oil- and gaspipelines, which are used to supply Europe. The USA calls the Russian defence of trading-and resource-routes an illegal occupation of the Crimea. They leave unmentioned though, that Russia is paying

lease for the harbour and provides the Crimea with gas for less money. Should it come to a war between West and East, then it is not primarily America who has a problem, but we Europeans. Because here with us the military conflict would take place. Whoever would like to get an impression of what it means to get involved in such a war, just take a look at the pictures from Libya, Syria, Iraq and Afghanistan: It is not politicians and chief editors that get struck by bombs and drones, but as a rule, the simple citizens, families, friends, children...

**50.000 Jews protest against military service amendment**

On 9 March, 2014 the South of Manhattan became the scene of the biggest demonstration of Orthodox Jews in the USA. They protested the expansion of military service to their brothers in faith, which is being debated in Israel. In the media many of them criticized Zionism and the Israeli government: They steal the land from the Arabs and intend to use the young orthodox people for ‘fighting their wars’.
