INTRO

Daily, unending news of threatening war and violence reach us! All that is happening around the Ukraine-crisis are signs of an upcoming war in Europe.

Yet this is not the only war that is threatening us. If you attentively read the backside of this issue you will notice that even daily - mostly unnoticed - we are confronted with further wars. At this present time, only "taking the second glance" is going to save us! Escape from the fog of the ever same official media reporting. The one who informs himself broadly can be revived from fear and resignation by offensively taking the initiative in reviving his immediate surrounding. Only a sleeping people can be overcome.

Ukraine – beginning of World War III?

This is an excerpt from the Russian Internet-Petition to UN-Security Council against the invasion of Russian and NATO-troops in Ukraine: "We demand that all foreign provocateurs and all members of the secret services will be withdrawn from Ukraine. They only disseminate hatred and tension. World War I, as well as World War II started by just the same provocations of the secret services [...] The secret services, their combatants kill – both,

from western as well as east Ukrainian side – and it is said, that only military can hold these killers in check. But they intend to deceive us again! Those who are looking for a pretense to send their troops into the country are these same who kill [...] That is why today professional killers, - coldblooded mass murderers - are battering people to death in southeastern Ukraine, under the name of "Right Sector". These are the same who killed the Euromaidan suppor-

ters and Berkut-people on the Maidan in Kiev [...] In the fueling of this hatred which leads to fratricide, they get a lot of help from the mass media. One must not believe them! [...] To call people and encourage them to kill other humans means to provoke a new, third World War in which there will not be a winner [...]"

Odessa – Tragedy or Planned Massacre?

dec. The bloodbath at Odessa on May 2nd, according to Ukrainian Chief Public Prosecutor had been planned long before the event. Unidentified men provoked the approx 1,500 football fans and activists of the Kiev putsch government and drove them towards the Trade Unions building where the unarmed opposition had their peaceful tent camp. These people fled from the agitated pro-Kiev-crowd into the Trade Unions building. Radical forces then set the tent

camp on fire and began to throw Molotov cocktails into the building.

The photos of the corpses found on the internet give a vague idea of what must have really happened inside the building. Civilian victims, even women and children, were tortured, raped, strangled, struck dead with black-jacks or shot in the head. Afterwards flammable fluids were poured over peoples' heads and hands to blur the traces of violence. Meanwhile there is

evidence that special units of the Ukrainian putsch-government were inside the building who then executed people one after another – resulting in 116 dead altogether.

Concentration camps in Ukraine?

In Eastern Ukraine you come across two "Concentration Migration Centres" currently under construction. They are allegedly for outlaws and immigrants from Africa and the Middle East. Both projects are described in English language, carried out by a Turkish enterprise and are co-financed by the EU.

The hand-over of the complexes originally planned for the year 2015 has advanced July 2014. The camps are surrounded by a barbed wire fence, several metres high. The illegitimate government in Kiev passed a law on April 8, 2014 that "Ukrainian citizens which take part in demonstrations and pro-

test actions for the reintegration into the Russian Federation and offer resistance against military actions, [...] will be sentenced to prison for treason." Coincidence?

Does the west prepare for a war against Russia?

vg. While western media frankly report about Russian troops at the Ukrainian border, we can hardly hear anything about the big movement of western war material towards the Russian border: Since March they have transferred an aircraft carrier to the Black Sea, US-jet fighters to Lithuania and Poland and airborne troops to the Baltic states (= Estonia, Latvia, Lithuania). Currently a missile defense system is established in Poland (which is said to be di-

rected against Iran). In April hundreds of battle tanks have been sighted in Dresden and Vienna which were transported by train to the east. Allegedly these are "Dutch tanks officially on their way to Hungary for a joint exercise of the Netherlands, Hungary and the USA". Why precisely in Hungary – a bordering country of the Ukraine?

Geo-engineering – controlled "climate protection" or control of the world?"

ga. The official statement of geo-engineering is about the stabilization of the climate to protect the earth against global warming. Yet, different programs to manipulate the climate have existed for more than 60 years, according to Ms. J. Fraile, chairwoman of the organization "Terra Sostenible". The first time these "weapons of war" were used was in the Vietnam War in order to flood the Vietnamese supply channel and to lengthen the monsoon for 50

days. This technology opens up the possibility to create not only rain, but also tempests, thunderstorms and lightning in any place, or to the contrary, to dissolve rain fronts, to halt hail and snowfall in order to produce a drought. Ms. Fraile points out: "Whoever possesses such a weapon is in control of the water supply and the food products."

Russia attacks the Petrodollar!

mb. Russia is planning more and more to accept the rouble as trading currency for oil supplies and not the US dollar anymore as dictated worldwide by the USA. Other states like Iraq, Lybia, Iran and Venezuela too have been trying to undermine this monopoly and have clearly felt the resistance. The overthrow in Ukraine steered by the West seems to be an attempt to put Russia in its place. How far will the USA go to keep the sinking dollar above water?

Fracking – extremely dangerous

op. In the fracking process, water and chemicals are pumped 2500 metres down in order to extract natural gas out of rock. That's why since 2005 US oil and gas companies have been allowed to pump toxic substances into or near drinking water supplies, where often the distance to residential areas is only 200m. The chemical toxic broth which remains after the fracking process doesn't need to be disposed of, but is left to evaporate or trickle into the groundwater. Residents have reported of physical complaints, the smell of gas as well as dark water coming out of their tap which is inflammable due to the high content of methane. Also in Germany fracking has started, mostly unnoticed.

The Dollar-Wars

ft. Washington made Russia know that trading oil without the US dollar would cause sanctions by the United States of America. If all countries would leave the Petro dollar system, the value of the dollar would fall down into a bottomless abyss – and with it the power of Washington! Only because the dollar is accepted as a medium of exchange in oil trades can the US still pay their bills. Without this money America's waging of war would be massively hampered.

Closing Point •

All these brutal and inhuman developments shed light on those who cause it: Keep in mind, it is a small amount of "power-hungry world rulers" - Non-humans, Satanists who need war and its brutality. Our answer is truth: Those in the dark and liars cannot keep existing in the light of reality!

Radioactivity in a car?

ga. The American company Laser Power Systems (LPS) is working on a new drive system for motor vehicles. They intend to generate energy by the use of the radioactive metal thorium. LPS plans to use this technology in motors in the serial production of cars. Should radioactivity be in our cars in the future? Dangerous forms of energy are continual-

ly supported. Where is the veto from the so called environment parties, environment organizations and the media?
